Aleppo Soap
100% Natural

3000 years of history

Our Aleppo soaps are made of a unique blend of pure Olive and Laurel oils, using a traditional soap making method perfected by an Aleppo family, that has been developed for over **120 years**.

Our mission is to work with local artisans whose techniques are disappearing over time.

säpon d'orient is committed to deliver a unique and antiquated soap following the ancestral Levantine recipe. Each and every one, a jewel of the master soap maker's craft for over centuries.

Respecting the past. Respecting nature. And respecting an artisan soap-making heritage that stretches back over 3,000 years ago.

Our Natural Process

100% NATURAL: made of only 4 natural ingredients, crafted exclusively with noble raw materials based on olive oil, pure noble laurel oil, water & caustic soda.

DERMATOLOGICAL BENEFITS: Highly hydrating and moisturizing properties. Anti-microbial properties. Cleans skin gently. Forms a protective barrier-rich in polyphenols. Soothes skin. Anti-aging properties, rich in antioxidants & omegas. Packed with vitamins A, D, E, F & K.

MATURED FOR 9 MONTHS: cooked in a copper cauldron using the traditional Aleppo method of saponification by cooking vegetable oil. Drying and maturing for 9 months in the open air.

TRADITIONAL KNOW-HOW: the art of soap making has been a process perfected by our master soap-makers for over 120 years, using techniques developed in Aleppo 3000 years ago.

Made by

- 4 natural ingredients
- No synthetics
